

INTEGRATED CORPORATE DECLARATION

Packaging - PPWR - Long-term declaration - REACH - PFAS

Simi Group S.r.l., VAT No. IT07190670963, acting as an operator in the packaging sector, declares that it monitors the European regulatory framework relating to packaging, chemical substances and preferential origin, with reference to Regulation (EU) 2025/40 - PPWR, Regulation (EC) No 1907/2006 - REACH and, where applicable, Commission Implementing Regulation (EU) 2015/2447.

PPWR and technical documentation. The products marketed are subject to regulatory adaptation, with attention to materials, packaging identification, recyclability, minimisation and technical documentation. Product data sheets are available at www.simisrl.it; upon request, where applicable and available, Simi Group may provide information on recyclability, recycled content, environmental labelling, absence of substances subject to restriction and supply-chain documentation. The company website www.simisrl.it is constantly updated in accordance with regulations.

Long-term supplier's declaration. Where requested for identified codes/products, this document serves as a long-term declaration for supplies made in 2026 and 2027. Commission Implementing Regulation (EU) 2015/2447. The products indicated in the commercial documents are of Italian preferential origin and comply with the rules of origin laid down for preferential trade with the European Union, unless otherwise stated in the quotation, order confirmation, invoice, delivery note or specific declaration. Simi Group will inform the customer if this information is no longer applicable.

REACH and PFAS. The articles supplied do not contain SVHC included in the REACH Candidate List in concentrations above 0.1% w/w, nor substances subject to restriction above the applicable limits, unless otherwise communicated with reference to the product, batch or material. No intentionally added PFAS are reported in the products supplied; for packaging intended for food contact, where applicable, Simi Group will request/retain the available documentation on compliance with the limits in force. Specific REACH/PFAS declarations may be issued case by case according to the article, material, intended use and manufacturer information.

Quality and environment. Simi Group operates under a certified UNI EN ISO 9001:2015 system and confirms its commitment to quality, energy efficiency and the use of renewable energy through a photovoltaic system. Simi Group is a company certified for quality according to the ISO_9001 standard through ICIM and Accredia.
