Features

70 g/m² kraft paper coated with VCI solution on both sides, abrasion-resistant. Poly-coated version available, double-sided, with the paper side facing inward.

Appearance

Brown color with printed markings to identify different grades.

Dosage

1 m² of VCI paper protects up to 10 m² of metal surface. Dosage depends on packaging configuration, logistics, and part preparation; technical calibration is recommended.

VCI Activation

In a sealed 1 m³ space: approximately 1 hour at 20 °C. The closer the protected goods are to the VCI emitter, the faster the activation.

Protection Duration

Up to 2 years under standard conditions; up to 5 years with proper packaging and logistics management.

Storage

Shelf life up to 2 years in original sealed packaging. Protect from sunlight, moisture, and contamination.
